

# The Dead Sea

Take a few minutes of quiet time,  
and let the presentation  
take you to a magical world.

The Creation

The ragged shores caress the salty land

The workshop of the greatest artist: Nature

A gallery of crystallizations

The seashore's sinkholes

Strata and textures

Colour, light and shade

Endless formations

The Name of the Game: Change

The Shores

Against all odds

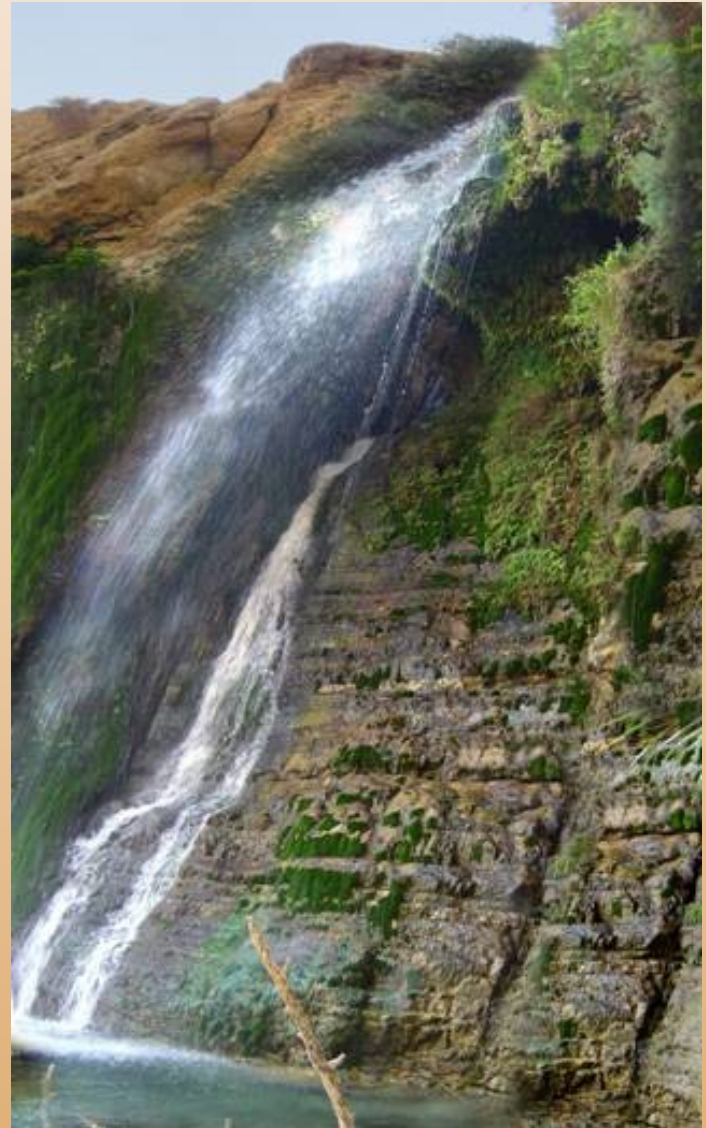

A bustling desert oasis

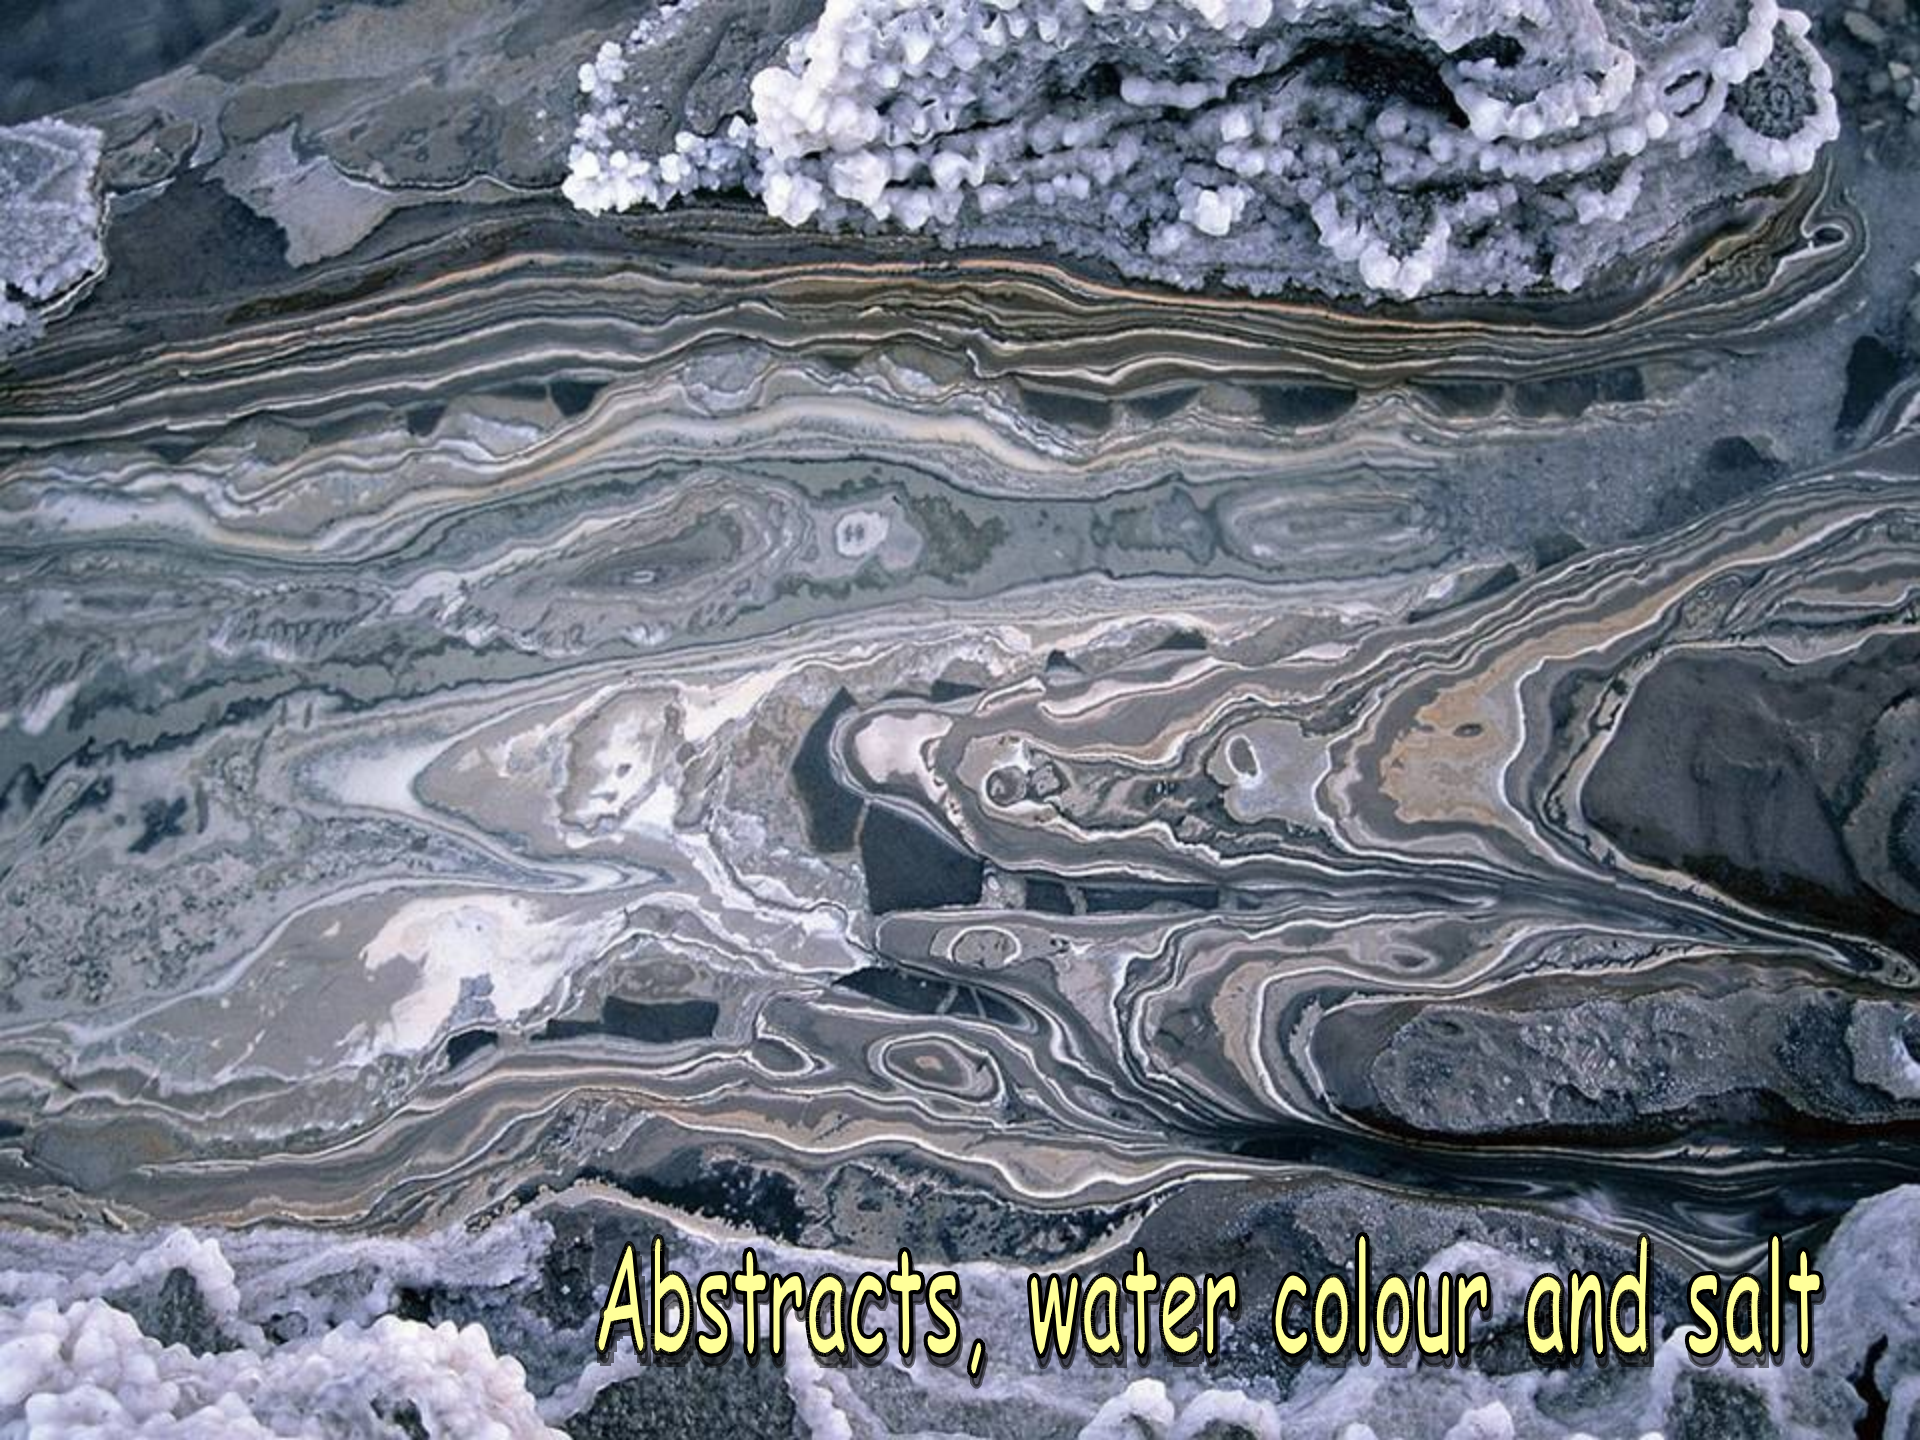

Nature's amusement: contrasting and consistent

Nature's illusion: Cascading water and light

Abstracts, water colour and salt

What can be seen  
and  
What's concealed

The Dead Sea

Awareness of the  
extinction -  
will help the survival  
of the Dead Sea

Listen to the cry of a dying sea ...

The lowest  
The saltiest  
The most magical  
That loves with all its heart

THE DEAD SEA
